PROFESSIONAL SUMMARY

Frontend Developer with 4+ years of experience building responsive, user-focused web applications using React.js, JavaScript, HTML5, CSS3, Bootstrap, and Material UI. Proven track record of delivering 8+ client projects, improving website performance, and enhancing user engagement through SEO, analytics, and scalable UI development.

Bringing a diverse background in technical recruitment with strong communication and stakeholder management skills. Currently transitioning into AI-focused development, gaining hands-on experience in Python, automation, and foundational AI concepts with a focus on agentic systems.

SKILLS

Tech: React.js, JavaScript (ES6+), HTML5, CSS3, Bootstrap, Material UI, Tailwind CSS, Python, flask

Tools: Postman, Google Analytics, Excel, Google Workspace, Ngrok

Basics: Node.js, Selenium, Pandas, NumPy, Matplotlib

Other: SEO, Chatbot Integration, AI Agent, LLM (Open AI)

EXPERIENCE

Codevamp Technologies | AI Intern (Jan 2026 – Present)

- Contributing to the development of an AI-powered voice agent for automated lead qualification and user interaction
- Working on data-driven workflows involving user data processing, conversation handling, and response tracking
- Gaining hands-on experience with libraries such as Pandas, NumPy, Matplotlib, and Selenium
- Assisting in basic chatbot development using NLP concepts
- Supporting data collection and processing tasks
- Exploring fundamentals of AI agents and workflow automation concepts
- Contributing to internal AI-based solutions focused on automation and user interaction (confidential project exposure)

ADTEK | Frontend Developer (Nov 2023 – Dec 2025)

- Developed responsive, user-focused websites using React.js and modern frontend technologies
- Delivered multiple client projects, contributing to a total of 8+ websites across roles
- Improved website visibility and traffic through SEO implementation (meta tags, G-tag integration)
- Supported marketing campaigns and integrated platforms like BookMyShow to drive event-based traffic
- Implemented chatbot solutions to simplify user queries and improve engagement
- Built customizable features for dynamic client requirements (e.g., ticket booking systems during live events)
- Managed Google Workspace and supported business operations
- Maintained client data and prepared monthly performance reports

Mafias Studios | Frontend Developer (Oct 2022 – Oct 2023)

- Built responsive websites using React.js, HTML5, CSS3, JavaScript, Bootstrap, and Tailwind CSS
- Focused on clean UI development and cross-device compatibility
- Collaborated with teams to deliver client projects within deadlines
- Gained exposure to basic backend concepts and Python fundamentals
- Supported Google Workspace and digital presence activities

DEXIAN | US IT Recruiter (Jan 2020 – Sep 2022)

- Managed end-to-end recruitment lifecycle (sourcing to onboarding)
- Worked across US & Canada markets for IT and non-IT roles
- Handled W2, C2C/T4, and H1B visa candidates
- Recruited for roles including Developers, Project Managers, and Business Analysts
- Worked with clients including Citibank

PROJECTS / FREELANCE WORK (2021 – Present)

AI Voice Agent for Lead Qualification (Ongoing)

- Built an automated AI agent that interacts with potential customers via voice calls after form submission
- Extracts and processes user data from Excel-based datasets to personalize conversations
- Collects key inputs such as interest level, preferences, and budget in real-time
- Applies basic scoring logic to estimate purchase probability and user intent
- Automates data pipeline by updating structured records and generating insights
- Supports scheduled conversations based on user availability
- API Integration : REST APIs (Twilio + OpenAI + Google Cloud)
- End-to-end workflow automation from lead capture → interaction → data storage → visualization
